Warranty

1 year repair/replacement standard limited warranty on the Tracking Device .

Payment: 100% advance against purchase order .

Carry – In Warranty

Spoter warrants that in normal usage and with proper maintenance, its product (Vehicle Tracking Unit) will conform to their specification for a period of 12 months from the date of purchase by the customer, subject to the conditions, limitations and procedure listed below. Any product, which proves to be defective in normal usage during that 12 months period, will be repaired at Spoter or replace by Spoter. Warranty does not cover any battery, pad, Fuse, wires, Covers, Antennas & cables.

Limitations

Spoter shall be limited to the repair or replacement of any parts of the product, which are defective in materials. Spoter Shall not be liable in any way for Product failure, or any resulting loss or damage which arises from:

- Use of product in an application for which it was not designed or intended.
- Corrosion, degradation or wear and tear.
- Failure to service or maintain the product in accordance with Spoter recommendations.
- Faulty or deficient installation of the product.
- Any modification of alteration of the product.
- Conditions that exceed the products performance specifications or safe working loads.

- This warranty does not cover any incidental costs incurred for the investigation, removal, carriage, transport or installation of product.
- Service by anyone other than authorized Spoter representatives shall be taken as warranty void unless it accords with Spoter guidelines and standards of workmanship.

Liability

Spoter shall not be responsible for

- Any loss of anticipated turnover or profit or indirect, consequential or economic loss.
- Damages, costs or expenses payable to any third party.
- Death or personal injury.
- Any loss of warranty of vehicle due to installation of device.

Procedure

- Both warranty and non-warranty repairs can only be performed at Spoter.
- The customer shall send the goods together with an order for warranty or non-warranty repair to the Spoter service office. The order shall be delivered in writing by mail or electronic mail.
- The order must contain a detailed description of the defect.
- Both warranty and Non-warranty repairs shall be carried out by Spoter in 5 working days from the receipt of order.
- In case of warranty repair, the customer shall be responsible for transport of goods to service office and transport of goods back to the customer. If it is found that the repair is not subject to warranty, all costs of repairs will be borne by the customer.

In case of any manufacturing defect in the Tracking Unit or need for any trouble-shooting in the Tracking software, the support team will respond to addressed problem within 6 hours provided the vehicle is made available for check at mutually agreed location.

- For the location other than mutually agreed location, the service engineer will assess the cause of problem and will provide the time and assistance to repair, on case basis. The response of support service will be in addition to the travel time to provide the response.
- For physical checkups or reinstallation or fault-finding of the gps tracking system on vehicle , by Spoter representative on spot are chargeable , even in warrantee also. Tele-consultation is free during the service period.
